

## P25 FROM TAIT

Solutions for Public Safety

## P25 FROM TAIT THE REAL ALTERNATIVE

Protecting the lives and assets of others is a calling. And it calls for reliable radio communications that the professionals count on.

Tait P25 solutions bring you choice:

### Choice of networks

- Digital IP networks that can be configured in conventional, multicast, trunked, simulcast configurations and supported by one point of contact.

### Choice of bands

- UHF, VHF, 700/800 MHz and dual modes ease migration and enhance interoperability.

### Choice of encryption

- Advanced encryption (AES and DES) with efficient key management using Tait KFD and OTAR

### Choice of features

- In addition to the CAI, Tait's unique Application Programming Interface places the power to customise Tait solutions into the hands of those closest to the need.

### Choice of models

- Quality manufacture protects your investment. As a manufacturer of mobiles, portables and repeaters Tait has the solution focus to serve you better.

### TAIT: THE RIGHT FIT
